Dear Parents,

As part of next year's registration you will be required to purchase some of the novels we will be reading in class. We will be working on annotating in the novels. This is a useful skill that students need to practice in order to make connections with what they are reading; and to build deeper understanding and improve comprehension. Students will continue to use this skill throughout high school and beyond. You may purchase these novels at school in the main office, or on your own. There are three books the students are expected to buy for the 2016-2017 school year.
