

Lead Testing in District Water Sources

RE: APSD145 Water Testing

Effective January 1, 2017, all public school districts must test the lead content of the water in all schools serving preschool through fifth grade students that were built before January 1, 1987. This testing must be done by December 31, 2017.

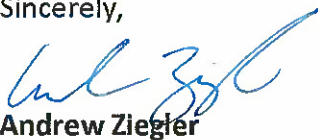

The new law also requires testing by December 31, 2018 in schools serving children from preschool through grade 5 built between January 2, 1987 and January 1, 2000.

***PLEASE NOTE:** The law does not address schools built after 2000 or schools serving students in grades 6-12. The General Assembly can change the law until June 30, 2019.*

Arbor Park School District #145 opted to test the water in all its facilities at once. Arbor Park School District #145 engaged TestAmerica Laboratories Inc. to test our water and we are very pleased to report that all tests are in compliance.

If you would like to review the results or have further questions, please contact Pat Sala, Safety & Security Specialist, at 708-687-8040 or stop by our District Office, which is located at 17301 Central Ave., Oak Forest, IL 60452.

Sincerely,

Andrew Ziegler

Assistant Superintendent of Finance/CSBO
Arbor Park School District 145
